

The benefit of Eden Park High School being part of the wider Trust; Education for the 21st Century

Education for the 21st Century is a multi-academy trust (MAT) that holds four schools; The Ravensbourne School, Eden Park High School, Mottingham Primary and Scotts Park Primary. Whilst each school in the Trust is unique (for example they all have their own local governing body, uniform, head teacher and ethos), there are many benefits in belonging to a group of schools within a MAT.

- Increased enrichment opportunities for students as resources can be shared.
- More opportunities for the schools to come together for learning.
- Sharing best practice for high quality staff development.
- Having access to a wider set of staff expertise.
- Economies of scale giving economic benefits.
- Retention of the best staff as they can move to other positions across the Trust.
- More effective Governance.

Eden Park High School is the fourth school to join the Trust and will benefit from being initially staffed by The Ravensbourne School.

Headteacher: Mrs Emily Codling
